

# Good Injection Guide

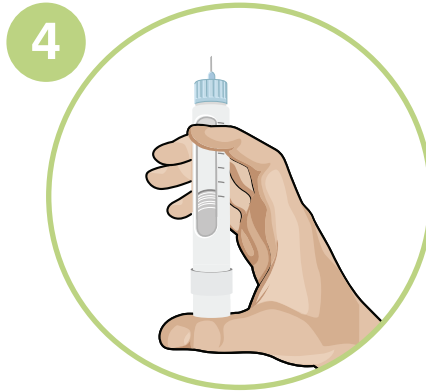

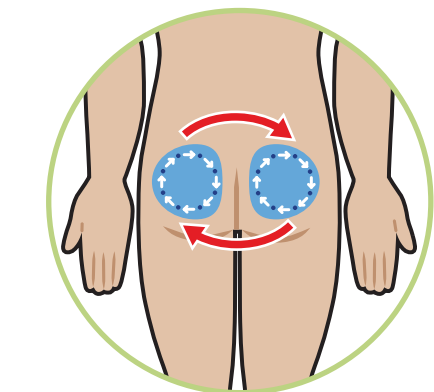

1 First wash your hands with soap and water.

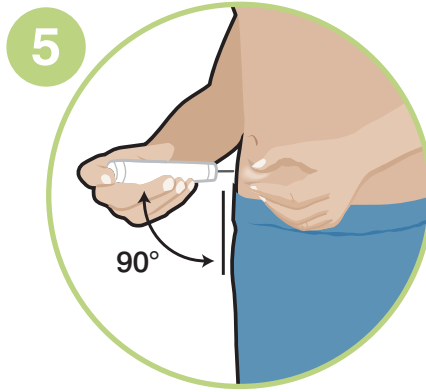

2 Attach a new needle onto the pen, then remove the shields.

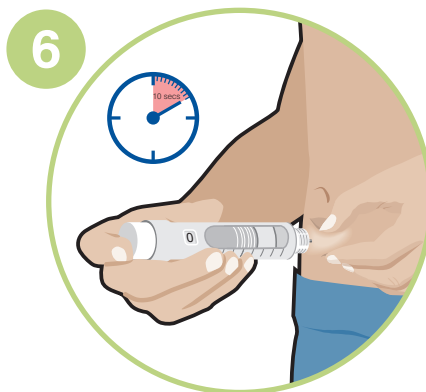

3 Make sure you rotate between injection sites.

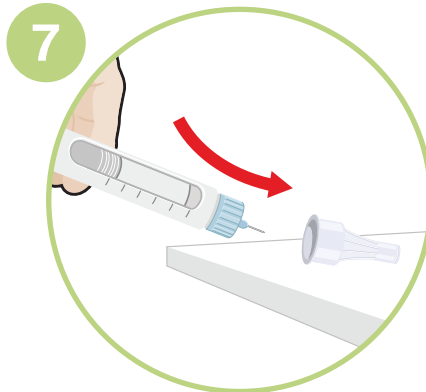

4 Prime your pen as recommended and dial the required dose.

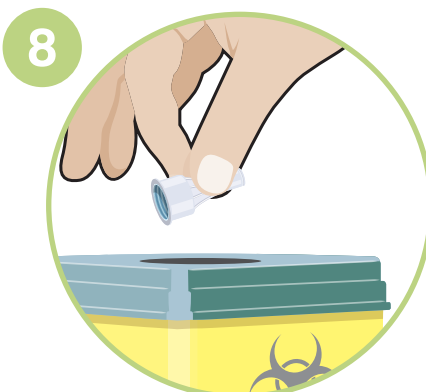

5 If recommended, pinch/fold your skin and insert the needle at a 90° angle.

6 Push the button down completely. Keep the button pressed down, count slowly to 10 before removing.

7 Carefully replace the outer cap.

8 Dispose of the needle in a suitable sharps container.
